

# Vlad Sazonau

## Frontend/Full-stack engineer

I'm a full-stack engineer with **8+ years of experience** building and shipping web products using **React, Next.js, TypeScript and Tailwind CSS**. I like owning products end-to-end, bridging engineering, design, and product to ship things that are useful, usable, and well-crafted.

### Highlights:

- Gained **750+ GitHub stars** for my open-source [invoice generator app](#) (**2k monthly users, 1k+ invoices generated**)
- Contributed to major OSS projects (**zod, gumroad, cal.com, flexile**) and received bounties
- My project was featured in a large IT Telegram channel (**50k+ subscribers**)

### EXPERIENCE

#### **Ninety Percent of Everything (90POE) — Staff Frontend engineer**

January 2023 - Present

**Project:** Enterprise software for the maritime industry

**Stack:** React, Apollo, Next.js, GraphQL, Ant Design, Jest, React Testing Library, Playwright, Node.js

#### **Responsibilities:**

- Set frontend architecture and technical direction for a multi-team product
- Led and mentored the frontend team, establishing standards and best practices
- Partnered with product, design, and backend to plan and deliver complex features
- Refactored legacy code to reduce tech debt and improve maintainability
- Defined testing strategy and maintained high code quality using React Testing Library and Playwright
- Led product demos and represented frontend in cross-functional discussions

#### **People-Analytix AG — Senior Frontend/Full-stack engineer**

March 2022 - January 2023

**Project:** Enterprise learning platform

**Stack:** React, Next.js, Apollo, TypeScript, Material UI, Jest, React Testing Library, Cypress, Node.js

Warsaw, Poland
